## Lake Superior Dragon Boat Festival Charitable Cause is Winner

AAHAM member, Carrie Coan, participated in the 14th Annual Lake Superior Dragon Boat Festival this August to raise money for the Twin Ports Rotary Club and to dominate the waves, of course! Unfortunately, only one of their goals were met; they did some charitable giving but the rag tag group of paddlers did not win this year... or even place in the top half of the teams. They sure had fun winging it though! This was the first time on a Dragon Boat for Carrie and several of her teammates, including her daughter as the boat drummer.

Each Dragon Boat was packed tightly with 20 paddlers, a steersperson and a drummer. The teams competed in heats to get into the championship round. This year's winning team tipped the scales with a time of 01:48, leaving the North Shore Rotary Team in their wake at 02:16!

Carrie says they are excited to fly higher in the ranks next year! When Carrie asked her daughter what she learned at the festival, she responded, "Canadians do not mess around with their paddling." She wasn't kidding, they even had a bag piper on board and they still beat most of the teams!

## From the Desk of the President

Greetings MN Chapter AAHAM Members,

I would like to start this note with my profound sense of awe and gratitude. As some of you may have heard, I lost my Father-in-Law on August 15, the Saturday following our Joint Summer Institute in Minneapolis. Because of his condition, I had to leave the meeting on the first night, following a wonderful group dinner with several friends and new acquaintances; this is when my "Awe" began.

Everyone at dinner wished me well and sent warm wishes for my Father-in-Law's health. As an exhibitor at the meeting, I had to get my exhibit taken down; my clothes and things packed and get on the road to Milwaukee ASAP. With multiple offers from the group to pack my booth and arrange to have it shipped to me, Jody Heard returned from dinner with me and packed up my booth while I took care of packing my other items in my hotel room. As a result, I was on the road by 10:30 p.m. The following days were filled with emails and texts from many of you with thoughts and prayers. This is where my "Gratitude" comes and some additional awe. It was at that moment that I realized how AAHAM, and the MN chapter particularly, go so far beyond being a simple professional association in my life. AAHAM is a kinship, a group of friends and yes, even a bit of a support structure in times of difficulty. For that, I thank each one of you, not for myself, but for every past, present and future member of our chapter.

As I mentioned, we had the Joint Summer Institute in August and it was a great success. Thank you to all who made it so. Pam Brindley (1st V.P.) and Rhonda Helgeson (2nd V.P.) did a particularly fine job of pulling together a slate of speakers and presenters that I dare say were as strong as we have ever experienced at a meeting. This year, the content was exactly what our members have been asking for with respect to high impact and low/no fluff. I heard from attendees, after the fact, how pleased they were with the topics and presenters. Thank you for your excellent work Pam and Rhonda.

One thing you may have noticed at this year's meeting was the lack of an announcement regarding this year's scholarship winner for the AAHAM ANI in October. As mentioned earlier this year, scholarships have been suspended pending a review of their policies. We fully expect that we will be able to get these back on track by next year's ANI so if this is something you are interested in, please be collecting your points toward the goal of attending next year's in Las Vegas.

Finally, the Board of Directors has performed a review of our Constitution and Bylaws. In an effort to bring them up to date, we will be asking you as members to vote on the proposed changes. Information on the proposed changes will be coming out in September and we will be looking to have your votes in before the end of the month. One of the most important changes being proposed is moving from a paper based voting system to an electronic survey based system. This will be more cost effective for the chapter and is a system many, if not most, chapters are using across the country to hold their elections and other member votes. Please keep an eye out for this information.

I wish you all the best as we proceed into the third quarter of 2015 and the interesting future in store for our industry over the next 15 months.

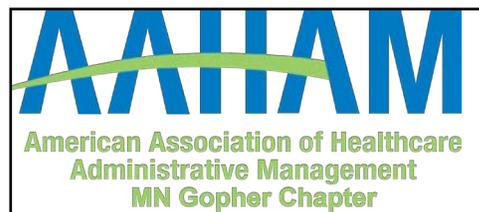

Warmest Regards,

Richard J. Rogers

## [Recap](#)

### Summer Institute

Thanks to all who made the trip. In looking at the surveys you said the hotel, the food and the location were great. And so you know that we really read your surveys, here are some of your comments:

- The food was great. (And yes I do agree that a hot breakfast should be more than a toaster) We will make sure that when I promise a hot breakfast we deliver.
- Awesome conference, thanks for providing the speakers, billing and payment is so complex. I acknowledge everyone in healthcare.
- Excellent topics, speaker and meeting coordination. Breakfast and lunch were good.
- Liked it here, many things to do. Nice hotel and great food.
- Great job!
- The topics were not as loaded at first blush as they actually were when presented. Great workshop.
- Good timeframe (1 PM Wednesday, and done at 3:30 PM Thursday.)
- I would prefer the second day to be the short day. All the speakers were very informational.

## How to Identify Who Sent Your Healthcare EFT Payment

Healthcare providers interested in cost savings and other benefits are converting to electronic payments at a steady clip. In 2014, the ACH Network moved more than 149 million healthcare Electronic Funds Transfers (EFTs), transferring about \$876.6 billion in claim payments from health plans to providers. During the same period, it is estimated that the healthcare industry saved approximately \$295 million by using the healthcare EFT standard and Electronic Remittance Advice (ERA).

But what if a provider has received an EFT payment with no corresponding ERA and doesn't recognize the sending organization? How is the sender determined? Unfortunately when a provider does not receive the associated ERA and cannot recognize the originator of the transaction, the provider must follow-up with the bank and the health plan—often with numerous phone calls.

### Populating the Company Name Field of the CCD+Addenda

For the healthcare EFT standard CCD+Addenda, the NACHA Operating Rules require that “the Company Name field must contain the name of the Health Plan originating the CCD, or, where an organization is self-insured, the name of the organization’s third-party administrator that is recognized by the Healthcare Provider and to which the Health Care Provider submits its claim.”

Using the name of the clearinghouse or vendor instead of the health plan or third-party administrator does not comply with the requirements of the NACHA Operating Rules. If the originator of the healthcare EFT standard transactions is not populating the company name field in accordance with the NACHA Operating Rules, the provider’s financial institution can file a Report of Possible Rules Violation through NACHA’s National System of Fines.

The goal of the National System of Fines is to ensure compliance with the NACHA Operating Rules and to have all parties correct possible formatting errors. If corrections are not made and the originator is found to be in violation of the NACHA Operating Rules, fines can be levied against the Originating Depository Financial

Institution (ODFI), which may then pass those charges along to the originator. Fines range from \$1,000 to \$500,000, depending on the classification and severity of the violation.

### Determining the Payment Originator

In those instances when the company name field is not populated correctly and the name of the originator of the CCD+Addenda is unknown, some financial institutions recommend that providers contact NACHA directly for assistance. However, as the rulemaking body for the ACH Network, NACHA is not a payments processor and does not possess detailed information on individual payments. NACHA staff does not have access to any information that can identify the originator of the healthcare EFT transaction and will recommend that the providers contact their financial institution for assistance.

Here are some helpful tips for healthcare providers that need to work with their financial institution to identify the EFT originator:

- Contact your financial institution and give them the account number, the deposit date, and the amount of the transaction.
- Advise the bank that you need assistance in identifying the originator of the transaction.
- Ask the bank to contact the ODFI of the transaction.
- The bank will need to give the ODFI the ACH trace number of the transaction (which is different from the TRN Reassociation Trace Number) to receive the name of the originator and a contact phone number.

The 2013 CAQH U.S. Efficiency Index estimates that the healthcare industry can save \$1.98 per claims payment using the healthcare EFT standard and ERA, thanks to the automated reconciliation of the payment with the ERA and the auto-posting of both the EFT and ERA.

It is important to both health plans and providers that the originator of the healthcare EFT is easily and correctly identified in the healthcare EFT standard format and that associated ERA or explanations of benefits are sent in a timely manner to eliminate the need for manual intervention and time-consuming follow-up.

## [Doris Dickey Joint Institute Presentation](#)

# PFS Revenue Cycle Open Forum Proves to be Unique Session

During the AAHAM/ HFMA Joint Summer Institute Doris Dickey's PFS Revenue Cycle Open Forum provided an opportunity to casually interact in a group setting with fellow peers. Participants engaged in an active discussion that went the full 90 minutes and could have gone on longer. Providers and vendors took the opportunity to discuss issues and share ideas.

Doris Dickey, besides being a member of the Illinois AAHAM Chapter, also currently sits on the National AAHAM Board of Directors as the CRCS/CCT Certification Chairperson. She is the PFS Manager at Rochelle Community Hospital, a Critical Access Hospital in Rochelle, Illinois.

The general feedback on the meeting survey indicated that members wanted more of this type of session. Doris has been doing these types of sessions for four or five years at HFMA and AAHAM meetings. She said this all started when a speaker cancelled at the last minute. So, she said, "I just started talking and it took on a life of its own."

John Currier, the current National AAHAM President called her and asked if she could do this at a National AAHAM ANI. He noted that it was a great way to get providers to talk about their challenges and what's ailing them in their operations.

Doris says people love it, "Because we talk about the nuts and bolts. You can try and network at breaks or lunch or at hospitality but, at best, you are only talking to five or six people. In this venue you can talk to 50 or more."

This type of interactive session can last from 30 to 90 minutes. When this type of format was first used started at HFMA meetings, there were generally three moderators from small, medium and large facilities. "Always include your vendors as they are in this with us. The vendors like this forum because they learn the nuts and bolts of what is going on with your receivables," commented Doris.

An important component for this type of venue is that the moderators have to do their homework before the meeting. Moderators need to start researching what's the latest challenge/opportunity in healthcare at the moment. Doris advises to check all the usual websites and then compile a list of ideas. This list should have at least a half dozen ideas and topics so that plenty of talking points will be available for discussion during the session.

AAHAM and HFMA members along with vendors at the Joint Summer Institute were both informed and energized after Doris' unique session approach.
